MILITARY OBLIGATIONS
Fulfilled | Special Forces

EXPERIENCE

Full Stack Developer & Technical Lead at **ClickSolvers** **2017 - 2024**
Full Time -> Onsite

Key Responsibilities

- UI/UX Design & Video Production**
Creation of modern and functional user interfaces (UI), with a focus on user experience (UX), along with video design for promotional purposes or presentations.
- Website Development**
Design and development of dynamic, responsive websites.
- E-commerce Store Development**
Creation of e-shops using custom CMS, as well as platforms like WooCommerce, OpenCart, and Magento, tailored to the unique needs of each business.
- Code Upgrades and Security Services**
Upgrading application code to newer versions, ensuring compatibility and performance optimization. Performing daily security checks to protect systems from vulnerabilities and threats.
- Web Application Development and Hardware Integration**
Development of specialized web applications and systems, integrating hardware with the web via GET requests.
- Data Analysis and Synchronization via APIs**
Automation and secure synchronization of large volumes of data from local software to web-based platforms (SaaS) using APIs, ensuring smooth and efficient data flow.
- Customer Technical Support**
Providing technical support to customers via email, phone, or remote connection (TeamViewer), ensuring prompt and reliable assistance.
